Written answers:

1:
  i)   valid
  ii)   valid
  iii) valid
  iv)   valid
  v)   valid
  vi)   invalid, odd parenthesis number.

2: Using the if0 we can test if two numbers are equal to 0 when subtracted from each other. We will want to use the

  if0 (-ArithC ArichC) then, else

Expression to test if the two expressions are equal to zero.
